My Experience at Sehgal Neo Hospital

Our experience was nice. As per the name "Sehgal Multi Specialist Hospital", its true. All the tests under one roof. Hotel & Hospital have ~~two~~ things common, i.e. same stay & services, but one thing differentiated is that in hospital patient needs services (treatments) with lots of care. We get this type of treatment here at SNH. Whether doctors, nurses, ^{Co-ordinators} ICU staff, operation & last but not the least House Keeping staff. All the staff members always pass smile all the time which emphasizes that we are here to treat you with care. Half of our disease is cured with this kind of attitude. My husband is suffering from Stone pain, but now he is well after operated here. We are in "WING -A, IIIrd floor" which won 1st prize yesterday. Wishing all the very best for serving much better in future.
