

My Experience at Sehgal Neo Hospital

Hi I am Rohit Bhanbani and I was suffering from the HEPATITIS and jaundice bleeding from the last 30 days now I feel so much better & and I am so much thankful & grateful to all the nursing staff who take care of myself from the last 21 days. Especially the sister Vandana Sharma sisters ~~Navdeep~~ Navica & Anis, all are so much helpful and care taking. Housekeeping staff is so good & polite. CPA. Sene & food staff is so good now I am discharging today ^{28/4/16} just because of all the people of the staff and doctors. If someone says that describe this hospital in one word then I think

that it is very shameful because there is no word in a dictionary in which I can describe this hospital
