

My Experience at Sehgal Neo Hospital

This is our third visit at this hospital as far as surgery is concerned. We have full faith in Mr Sehgal & his team, in helping the patients by providing complete/right advise right from OPD and afterwards admission till discharge of the patient from hospital. They are also helping more patients who are holding cash less insurance policy by coordinating smoothly & steadily through different TPA on behalf of patients. Things are getting simply & better as the time progresses.
